An overview of My Health Record for clinical immunology and allergy specialists

Dr Kathy Rainbird and Dr William Smith

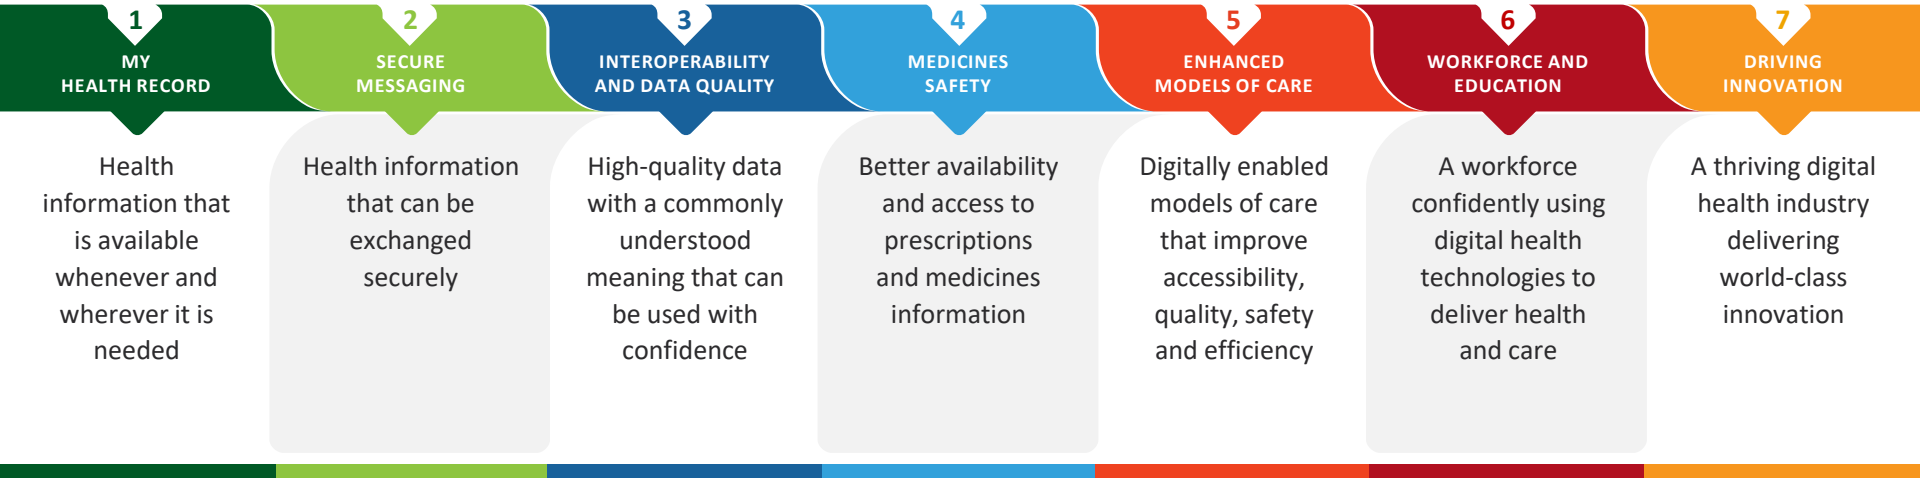
16 June 2020

Acknowledgement

We would like to acknowledge the traditional owners of country throughout Australia, and their continuing connection to land, sea and community. We pay our respects to them and their cultures, and to Elders both past and present.

National Digital Health Strategy – roadmap for delivery

Co-designed with all states and territories and agreed by COAG Health Council



What is My Health Record?

An online summary of an individual's key health information

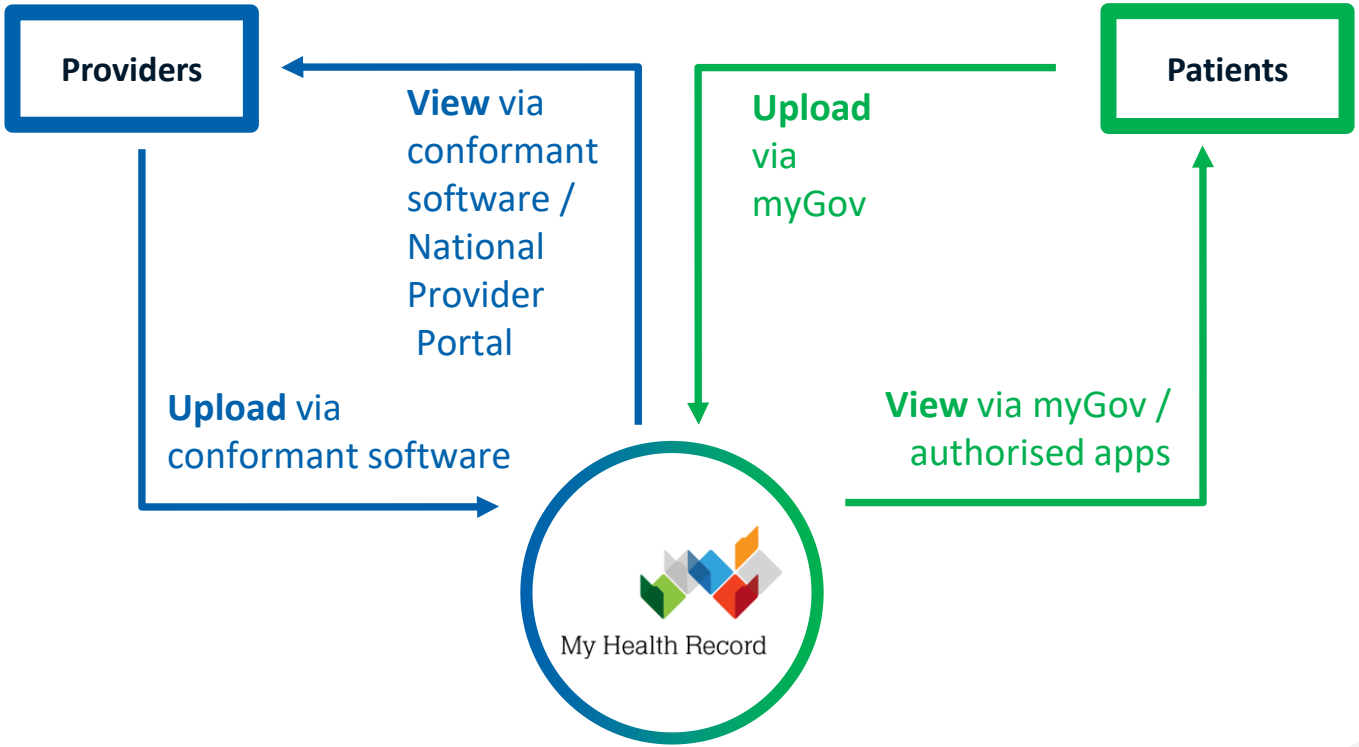
Personally controlled

Part of a national system

Accessible at all times

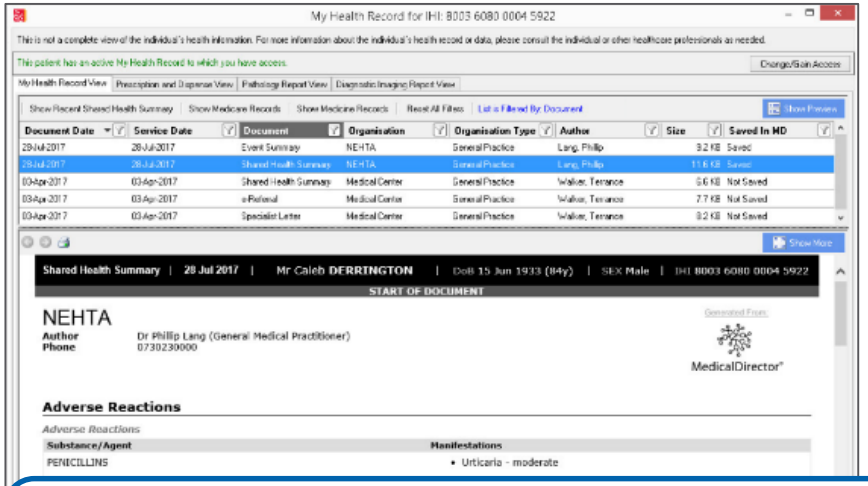
Protected

How does My Health Record work?

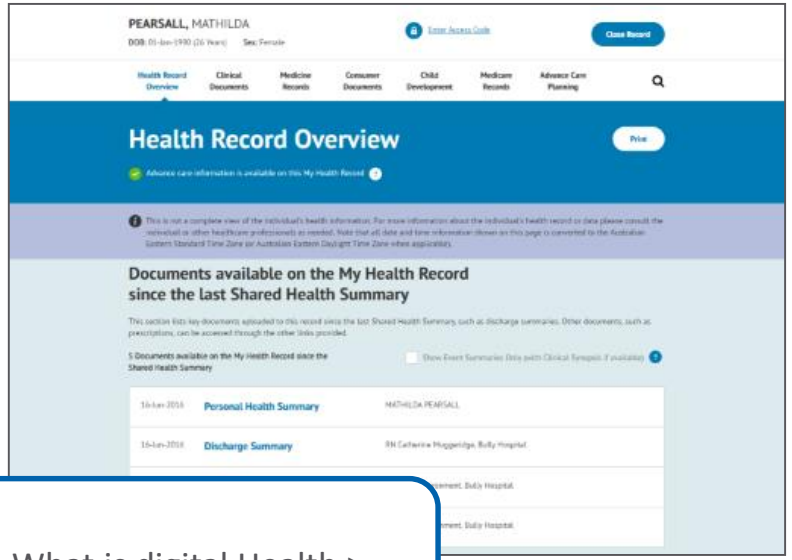


How do specialists engage with the My Health Record system?

Clinical Information System (CIS) conformant with My Health Record



National Provider Portal (NPP)



Register of Conformity

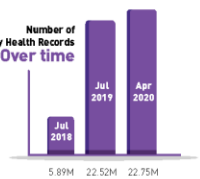
www.digitalhealth.gov.au > Get started with digital health > What is digital Health > Who is using digital health > Software products using digital health

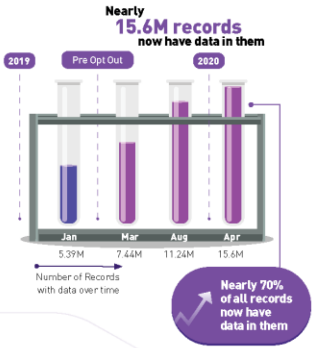
My Health Record – the big picture

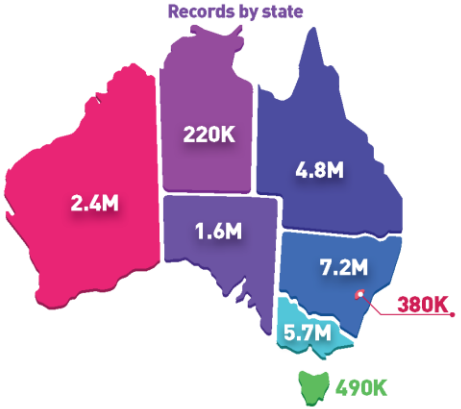
22.75M Total My Health Records

When you have a My Health Record your health information can be viewed securely online from anywhere, at any time - even if you move or travel interstate. You and your healthcare providers can also access your health information from any computer or device that's connected to the internet.

An increase of 230,000 records since July 2019.







What's inside?

1.95B Documents uploaded to My Health Record

From medical histories to the latest blood tests, from pathology reports to advanced care plans, more vital health information is now securely stored and available when needed.

There are 190M documents in the system that have been uploaded by consumers or healthcare providers.

Over **65M** Clinical Documents

Documents uploaded by a healthcare provider like hospitals, pathologists and radiologists.

An increase of nearly 3.5 million documents in April alone.

Over **128M** Medicine Documents

Documents uploaded by healthcare providers like pharmacies and GPs.

An increase of more than 6M documents in April alone.

1.76B Medicare Documents

Documents uploaded by government agencies like Services Australia and Veterans' Affairs.

304K Consumer Documents

Documents uploaded by people

As at April 2020

Specialist insights

Improved integration of clinical information systems for specialists

The Agency has partnered with the following software vendors to complete designs that seamlessly and securely integrate the My Health Record system into their current CIS.

Vendor	Software
Best Practice Software	Bp VIP.net
Clinic to Cloud	Clinic to Cloud
Clinical Computers	CCOS Specialists
Genie Solutions	Genie Desktop
Genie Solutions	Gentu Cloud
Intrahealth	Profile
Medical-Objects	Medical-Objects Specialist Explorer
Medical Wizard (Mouse Soft)	Medical Wizard Clinical module
S4S (Software for Specialists)	S4S Audit4 CIS module
Zedmed	Zedmed

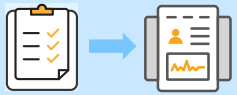
My Health Record supporting specialist workflow

Specialist practice receives a referral letter from GP, hospital, etc.

Specialist reviews letter and patient information collated prior to consultation

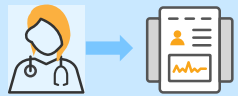
Patient's My Health Record can be viewed via conformant CIS/NPP

Specialist documents consultation notes

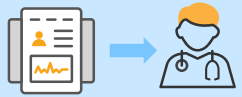


If notes were handwritten or dictated, a digital specialist letter is generated

Specialist approves the letter



Specialist generates a specialist letter digitally



Specialist letter is sent to referring doctor

Specialist letter is uploaded to My Health Record via conformant CIS

Adding value to clinical practice

Which My Health Record functions are of high-value for specialists?

Clinical task	My Health Record function
Medication reconciliation tasks/prescribing	Medicines Information View
History taking and patient assessment	Shared health and discharge summaries
Avoid duplicate testing / scans / diagnostics	Pathology and diagnostic imaging reports
Help to inform end-of-life care decisions	Advance care planning documentation

My Health Record functionalities

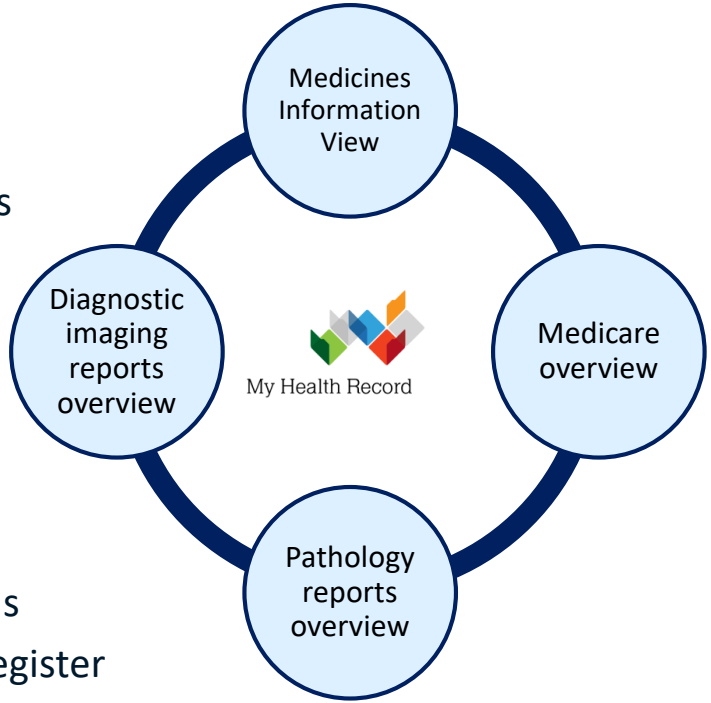
My Health Record - documents

Patient documents

- Personal health summary
- Personal health notes
- Advance care planning docs and custodian details
- Emergency contacts
- Childhood development

Medicare documents

- MBS and PBS claims
- Organ Donor Register status
- Australian Immunisation Register (AIR) records



Provider documents

- Shared health summaries
- Discharge summaries
- Pathology reports
- Diagnostic imaging
- Event summaries
- Prescription records
- Dispense records
- Pharmacist Shared Medicines List (PSML)
- Specialist letters
- eReferrals
- Goals of care

GPs uploading shared health summaries

Health Profile

This section may contain the following subsections Adverse Reactions and Alerts.

Adverse Reactions (Health Profile > Adverse Reactions)

None known

Event

This section may contain the following subsections Problems/Diagnoses This Visit, Clinical Interventions Performed This Visit and Clinical Synopsis and Diagnostic Investigations.

Clinical Synopsis (Event > Clinical Synopsis)

Clinical Synopsis

Clinical Synopsis
Patient fell in his bathroom and could not weight bear on his feet when the ambulance arrived. He was found to have a fractured neck of femur. He was taken to theatre for a pin and plate of the fracture. His post op recovery was complicated by acute delirium and hyponatraemia. His Avapro/HCT was changed to Avapro with marked improvement. Sodium normal on discharge. Please follow up his BP control. He will have private follow up via Rehabilitation Specialist.

Problems/Diagnoses This Visit (Event > Problems/Diagnoses This Visit)

- There was a non-displaced fracture of the left neck of femur (Principle diagnosis)

Clinical Interventions Performed This Visit (Event > Clinical Interventions Performed This Visit)

Clinical Intervention Description

Value(s)
Pin and plate surgery of left neck of femur

Diagnostic Investigations (Event > Diagnostic Investigations)

This section may contain the following subsections Pathology Test Result and Imaging Examination Result.

Pathology Test Result (Event > Diagnostic Investigations > Pathology Test Result)

Pathology Test Result(s)

Result DateTime	Result Name	Overall Result Status	Diagnosis
13 Jan 2011 10:59+0300	FBE (Full Blood Examination)	Amended	• Test normal

Pathology Test Specimen Detail

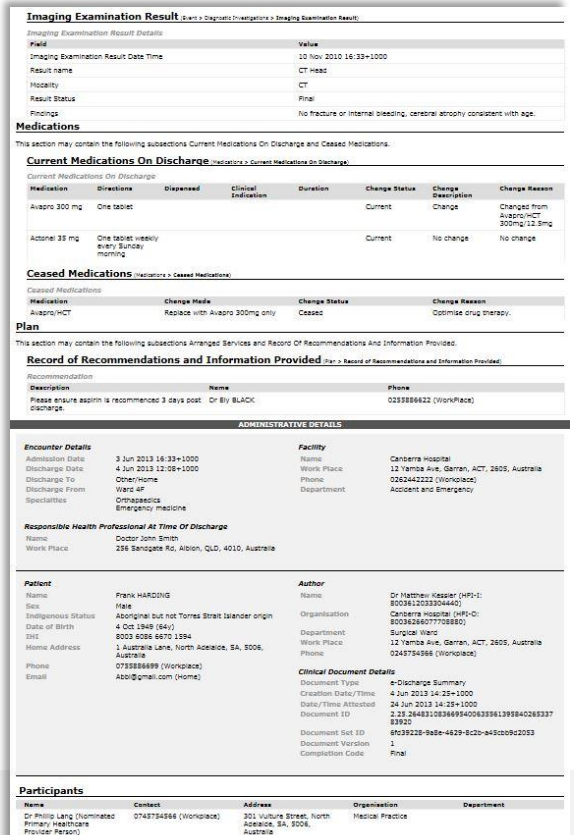
Collection Date
11 Jan 2011 14:49+0300

Test Result Group

Group Name	Result Name	Result Value	Result Status
Cell Count	Haemoglobin	• 132 g/L (115 - 165)	Final
Cell Count	Haematocrit	• 0.41 (0.33 - 0.47)	Final
Cell Count	RCC	• 0.48 10^12/L (3.9 - 5.6)	Final
Cell Count	MCV	• 91 fL (80 - 100)	Final
Cell Count	WCC	• 5.5 10^9/L (3.5 - 10)	Final
Cell Count	Platelets	• 246 10^9/L (150 - 400)	Final

Test Result Group

Group Name	Result Name	Result Value	Result Status
White cell count differential	Neutrophils	• 3.08 10^9/L (1.5 - 6.5)	Final
White cell count differential	Lymphocytes	• 1.75 10^9/L (0.8 - 4.0)	Final
White cell count differential	Monocytes	• 0.48 10^9/L (0 - 0.9)	Final
White cell count differential	Eosinophils	• 0.20 10^9/L (0 - 0.6)	Final
White cell count differential	Basophils	• 0.03 10^9/L (0 - 0.13)	Final



Imaging Examination Result (Event > Diagnostic Investigations > Imaging Examination Result)

Imaging Examination Result Details

Field	Value
Imaging Examination Result Date Time	10 Nov 2010 16:33+1000
Result name	CT Head
Modality	CT
Result Status	Final
Findings	No fracture or internal bleeding, cerebral atrophy consistent with age.

Medications

This section may contain the following subsections Current Medications On Discharge and Ceased Medications.

Current Medications On Discharge (Medications > Current Medications On Discharge)

Current Medications On Discharge

Medication	Directions	Dispensed	Clinical Indication	Duration	Change Status	Change Description	Change Reason
Avapro 300 mg	One tablet				Current	Change	Changed from Avapro/HCT 300mg/12.5mg
Actonel 35 mg	One tablet weekly every Sunday morning				Current	No change	No change

Ceased Medications (Medications > Ceased Medications)

Ceased Medications

Medication	Change Made	Change Status	Change Reason
Avapro/HCT	Replace with Avapro 300mg only	Ceased	Optimise drug therapy.

Plan

This section may contain the following subsections Arranged Services and Record Of Recommendations And Information Provided.

Record of Recommendations and Information Provided (Plan > Record of Recommendations and Information Provided)

My Health Record security

- Many safeguards are in place to protect the My Health Record system.
- These include strong encryption, firewalls, secure login processes and audit logging.

- The Agency's Cyber Security Centre monitors the system.
- Health information in the system is protected by legislation.
- Significant penalties apply for deliberate misuse.

- All data within the My Health Record system is stored securely in Australia.
- External software goes through a conformance process before it is allowed to connect.

All available Allergies and Adverse Reactions
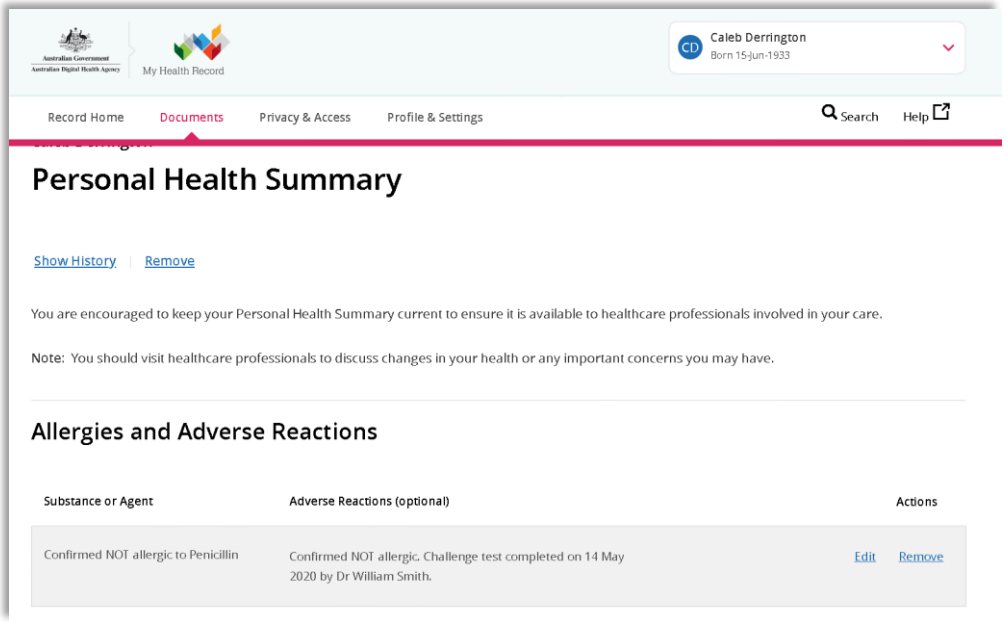
02-Apr-2017 to 27-May-2020 (4 minutes ago)

Source/Author	Date	Substance/Agent	Manifestation(s)
Event Summary by Own Organisation	27-May-2020 (4 minutes ago)	**Penicillin - confirmed NOT ALLERGIC**	Passed challenge test 27 May 2020 by Dr William Smith
Patient-entered information	14-Jan-2020 (4 months ago)	**Sunny Protector Pat's Homebrand Sunscreen**	I get a rash in the area it is applied

For specialists without conformant software

- Encourage patients to add allergy information to their My Health Record via a personal health summary
- This can include de-labelling information.
- Remember to include:
  - ‘confirmed not allergic’
  - date of challenge test
  - name of specialist.



Specialist letter wording for GP

- Encourage referring GPs to update and upload a new shared health summary
- Specialist letter wording for GP:

"This patient has been confirmed as allergic to X, Y and confirmed not allergic to Z.

Please update your local clinical records accordingly.

If you use My Health Record, please consider uploading an updated shared health summary for this patient to ensure allergy information is accurate."

How can patients engage with their My Health Record?

Patient control of their My Health Record

A patient can choose to restrict access to specific documents in their My Health Record by setting a Limited Document Access Code (LDAC).

Only organisations approved in the LDAC can access those documents

A patient can restrict access to their entire record using a Record Access Code (RAC).

In a consultation, the patient will need to give you the code to allow access to their record.

In an emergency, a clinician can exercise a 'break glass' facility to allow temporary access

Patients can choose to receive an SMS or email alert when a health provider organisation accesses their My Health Record

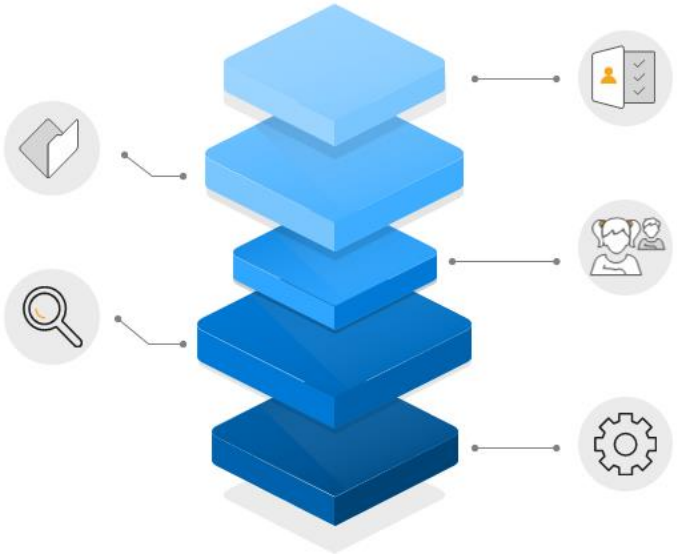
All instances of access to My Health Record are monitored and logged

How can I make My Health Record work in my practice?

My Health Record – what do I need to do?

Register and get connected to My Health Record

Confirm the process to access My Health Record for authorised staff



Ensure there is My Health Record security and access policy

Training for staff and ensure they are familiar with policies in place

Ongoing participation and obligations

My Health Record – organisation registration steps

1. PRODA *Provider Digital Access*
2. Health Professional Online Services
3. Register seed organisation to get HPI-O and may then link HPI-Is to HPI-O

Matching details expedites registration for HPI-O

Australian Government
Australian Business Register

Access via provider portal from PRODA

For access via conformant software

3. Request and download NASH
4. Link Medicare PKI site certificate to HPI-O (if required by software provider)
5. Contact software provider

Genie Summary Sheet

Uploading an Event Summary

Note:
These steps assume that your software is connected to the My Health Record system, the patient's Individual Healthcare Identifier (IHI) has been validated in your system, and the patient has a My Health Record. If your software has not been connected, or the patient's IHI has not been validated, visit the Australian Digital Health Agency website (www.digitalhealth.gov.au) for information on readying your organisation for My Health Record.

1. Once you have opened the patient's local medical record and entered the clinical information/notes for the consultation, select the **My Health Record** icon to gain access to the patient's My Health Record, then select the **My Health Record** tab.

2. The **Documents List** will appear. Select the **Create and Upload a New**
